Christians can dial Jerusalem on new telephone prayer line

Reuters

JERUSALEM — For believers around the world, Christian prayer in the holy city of Jerusalem is now only a telephone call away.

The Christian prayer line, inaugurated Sunday, allows callers to share their problems and pray with a Christian volunteer in Jerusalem in English, Hebrew, Spanish, Japanese, Russian, German or Finnish.

It can be reached from the

United States by dialing (900) 4HOLYLAND and from other countries at 972-2-323232.

The line was opened with messages of peace from foreign religious and political leaders, including former President Reagan.

The line is sponsored by the Jerusalem Christian Review, a monthly publication of the Jerusalem Bible Institute. Only telephone companies will receive money from the venture.

Script for homework tape

This is the homework exercises tape for the gendo red-belt course.

The purpose of this tape is to ~~to~~ give you real practice in detecting "the" in conversational situations.

How to use this tape

↓ If your player has index numbering (counts) note the number at the start of each example so you can rewind to that point if you wish to hear the example again.

Congratulations. You've finished the tape.

Here's what you can expect in the next weeks/months.

Self-fulfilling prophecy
first you'll notice "the"s in the speech of people whose opinion are counter to your own. It will be easy to observe the stupidity in their thinking - watching TV, listening to radio, ~~then~~ reading paper, magazines, etc.

in your editorial essay, "the Barbarians
are inside the gates." You ask the
question, "Can we turn it
around?" (almost)

the answer is obviously "no."
"We" can't turn it around.

"We" are the problem.

New laws - theories - etc won't
solve the problem.

"We" must change

When an govt. - people interaction
fails - the govt ~~has~~ retains the
right to create a new, better people.

People fundamental conceptions
of self - etc. - their place in
Earth - their rights/obligations/etc.
must change.

All of this takes place in the domain of law.

Language is the key to saving Earth.
toward that end, I've been
developing a sort of linguistic
anti-stupid virus.

"I" is a linguistic/cortical ^{electro-chemical}
vortex

All "thinking" is done in terms of
an "actor" named (I, me). The
"Self" is identified with this
fictitious entity "I".
"I" is then identified with
the L.M. We then act as
though we believe everything
we hear of our L.M. say. We
think "we" said it.

We mistake ~~the map~~^{a map} for ~~the~~^{ing} a territory. 8647

When you get right down to it —
the "outside world" / so-called
"reality" is merely a hypothetical
contract which we have reified. We're
mistaken ^a the map for the territory.
Now, don't get me wrong. "Reality" isn't
a bad idea, way of looking at things.
But it's not a very good way of
thinking about processes. In fact, it's
a quite limited view. It's a
special purpose language useful
for survival strategies — when you
are attacked by a ~~pack~~ bear or a pack
of heinacs. Struggling for dominance

Q: Why should I take gendo?

A: Because

1. You think in English.
2. English is not a "well-formed" language for clear thinking and accurate communication.
3. Specifically, English imposes certain unconscious erroneous assumptions upon our thinking. - interfering with our ability to operate at maximum intelligence, creativity, productivity, fun!

These physical changes in time become manifest as temperament/mood changes - so-called "rejection sensitivity" being an important one.
